

Building the Future: The Saltzman Family Center for Facing History and Ourselves

Facing History Cleveland is strengthening its community presence with a new office building on the Urban Community School Campus. Strategically located in a burgeoning neighborhood, this building represents Facing History's perseverance amid unprecedented crises as a **steadfast beacon for educators and students** in Northeast Ohio.

With our **new building**, we are building **new partnerships** and creating the physical and emotional space we need to continue the mission of Facing History.

Make history with us.

Stand with Facing History: Sponsor an Upstander Space

Opportunities to support our vital work

Spaces throughout the building will bear the name of history's **Upstanders**, chosen by **Facing History students in Northeast Ohio**, underwritten by local corporations and individuals. Sponsor names will be displayed alongside your chosen Upstander space.
